ABOUT ME

Information Technology graduate from Telkom University with a strong interest in Frontend and Web Development. Experienced in building responsive, database-driven web applications with React.js, Firebase, Laravel, and MySQL through internship, professional, and academic projects. Solid foundation in Object-Oriented Programming (OOP), and author of a paper presented at an international conference. Passionate about building user-friendly applications while continuously learning modern web technologies.

EDUCATION

Telkom University | *Bachelor of Information Technology* Sept 2022 – Aug 2026

- **GPA:** 3.66/4.00

WORK EXPERIENCE

PT Joglosemar Media Technology Oct 2026 – Present

Junior Staff Developer Assistant

- Contributed to the Social Media feature of SuperApps (SaaS), an AI-powered content studio that generates scripts, photos, and videos and schedules automated publishing to Instagram, Facebook, TikTok, YouTube, and X.
- Developed user interfaces for the Content Studio, Calendar, Posting & Scheduling, and Brand Kit using JavaScript, HTML, and CSS.
- Created software tutorial videos, prepared product presentations, and presented the AI Assistant and Digital Signage solutions to the internal team.

PT Len Railway Systems May 2025 – Sept 2025

Front-End Developer Intern – MAGENTA Internship Program

- Built DoTrack (Documented Instruction Tracker), a web application that digitizes Work Instructions and replaces manual documentation.
- Developed responsive interfaces with React.js (Login, Dashboard, User Management, Task Management, Progress Monitoring).
- Integrated Firebase (Firestore, Authentication) and implemented Role-Based Access Control (RBAC) for Admin and Employee roles.
- Developed Manufacturing Order (MO) and task progress tracking features, and conducted functional testing and User Acceptance Testing (UAT).

PROJECT EXPERIENCE

Rumah Sukses Education Foundation Website | Telkom University Jan 2026

React, Node.js, MongoDB

- Developed an integrated website for a preschool and tutoring foundation in Papua, featuring online enrollment connected directly to an admin dashboard.
- Implemented automated email/WhatsApp notifications for registration confirmation and admin data export (.csv).
- Built an interactive gallery, parent testimonials, and Google Maps integration to expand digital reach.

Craftfolio | Telkom University Jan 2025

Laravel, Bootstrap

- Developed a web-based portfolio builder that helps designers create and showcase their work easily.
- Implemented portfolio creation and content management features.
- Designed an intuitive interface to simplify the portfolio creation process.

EventEase | Telkom University Jun 2023

Java, MySQL, and Apache Tomcat

- Developed a web-based event management platform.
- Implemented event creation and participant registration features.
- Applied Object-Oriented Programming (OOP) principles to create a modular and scalable system.
